Howell Mountain Hilltop Retreat

Step back in time and into serene relaxation at this private, gated wine country estate in the Napa Valley. Perched on a level hilltop shaded by manicured Pine and Redwoods, the historic 40-acre compound has spectacular panoramic views of the valley. A 2,531-sq ft main house circa 1900 was meticulously remodeled in 2006, offering one bedroom, two bathrooms, an updated country chef's kitchen and expansive living and dining areas complete with vaulted, exposed beam ceilings and French doors that open directly to covered porches, an al fresco dining area and central lawn.

Adjacent to the main house, a boardwalk path lined with agapanthus leads to a generous, 1,200-sq ft guest house featuring three bedrooms, one without permits, two bathrooms, kitchen and open living and dining spaces. The "L"-shaped structure - built in 2010 - has a large, interior covered porch and sprawling flagstone patio surrounding a central swimming pool with infinity edge overlooking the vista. A Petangue court, fire pit, and two fireplaces complete this heritage hilltop retreat.
